## Technology Needs

### WEBEX

- For the live round 2 skill demonstration, these events will be using the [WebEx platform](#)
- For a seamless event experience, competitors should [download WebEx](#) on the device they plan to use for competition.
- Competitors should change / setup the "Display Name" in the WebEx account they plan to use so that it matches the name used for conference registration. Using the same name will ensure event staff recognize you and will admit you seamlessly into the live event.

- Competitors will be EMAILED a specific WebEx meeting link and password to use the day of the event. The email in the HOSA conference management system is where the link will be sent. A list of all meeting links will be sent to advisors also.
- 10 minutes before their scheduled appointment time, competitors should click on the meeting link in the email. Competitors will be placed in a virtual “waiting room/lobby” and must wait to be admitted by the event staff.
- Ensuring the Display Name matches the Conference Registration Name **before you join the meeting** will help avoid delays and issues while you are waiting to be admitted.
- Once you are admitted to the live event from the Waiting Room/Lobby, you will see the judges and event staff already on the screen. Event staff will do a roll call to confirm the correct competitor and you will be asked to introduce yourself to test your audio and video. Video capability is required for this event.
- If you have trouble connecting to the meeting, call the CE Help Line immediately.
- If you get logged off in the middle of the event for some reason, immediately try connecting to the link again to re-enter. If that does not work, keep trying and call the CE Help Line immediately.

## Participant Safety

Participant safety is a top priority for AL HOSA. Several restrictions will be used to protect participants in the virtual platform. Every individual competition room used will have a unique passcode. That passcode will only be made available to judges and participants in that round. The ability to share screens and file share through the chat will be turned off. Waiting Room features will be turned on for all events, so only authorized competitors and staff will be granted access. The Private Chat feature will be disabled to prevent communication that event moderators cannot see. All judges and competitors will be given a strict naming process that must be used in each event (e.g., Competitor - Suzy Smith) so that all persons may be easily identified. Finally, conference staff and competitive event volunteers will be monitoring all WebEx rooms during competition. They will quickly remove anyone violating competition policy. Competitors may report disruptions to the conference helpline, where staff will be prepared to handle any problems immediately.

## Security & Ethics

All competitors are required to review the AL HOSA Virtual Event Code of Conduct [found HERE.](#)

## Dress Code

As Future Health Professionals, HOSA members should present themselves in a professional manner for all recorded video presentations and / or live events as part of the AL HOSA Virtual SLC 2021; however, dress code bonus points will not be awarded this year.
