Health Science Cluster Program Guide

The Health Science cluster provides students with essential knowledge and skills for pursuing careers in the following five pathways: Therapeutic Services, Diagnostic Services, Health Informatics, Support Services, and Biotechnology Research and Development. Rigorous and challenging content may include a variety of instructional strategies, work-based learning experiences, and simulation.

To be a CTE Health Science Program, you must offer a minimum of three courses from this program guide within a two-year period.

Career Pathway Program	Health Science Program		
	The Health Science Program instructional content incorporates project- and problem-based healthcare practices and procedures to demonstrate knowledge and skills fundamental to a variety of healthcare careers. Knowledge and skills are reinforced and enhanced through co-curricular activities and participation in HOSA – Future Health Professionals and work-based learning opportunities that are age and grade appropriate.

(*Emergency Services & Management, Forensics and Crime Scene Investigation, Intro to Veterinary Science, and Veterinary Science* are updated courses of study. You must teach using the 20-21 updated courses of study)

NOTES:

1. Foundations of Health Science is the required prerequisite course for this program.
2. All courses are one credit unless specified.
3. Program must provide safety training for classroom, lab, simulation, and clinical settings.
4. Successful completion of one credit (minimum) in Health Science coursework is required prior to placement of a student in a clinical/internship. A program receiving a waiver for the Foundations prerequisite is not exempt from this requirement.
5. Programs are encouraged to seek local board approval for all clinical internship forms and contracts.

SREB AC Health Informatics Program			
Career Pathway Program	This program merges information science, computer science, and health care. Students use information technology, data analysis software, and statistics to address a range of health related topics. Knowledge and skills are reinforced and enhanced through participation in HOSA – Future Health Professionals and project-based learning opportunities that are age and grade appropriate. (Contact SREB for additional information. This is a purchased curriculum.)
